

Solar Electrician (Solar Site Cleaning and Coating Projects)

Build More Than Just A Career

Our people are our success. They are also adventure-seekers and difference-makers who are committed to a shared vision – to offer the best of the best in project delivery services. When you join ONEC, you join a community that seeks to help you build more than just a career. You will build working relationships and partnerships that become friendships, build ideas that become realities and build skills that help you grow personally and professionally. We want you to love what you do so that together we can do great things.

About ONEC

ONEC Group has been building projects in Western Canada for over 20 years. As an EPC and EPCM provider, our services include multidisciplinary project services including project & construction management, engineering & design, procurement & logistics, geomatics & survey, fabrication & construction, mechanical & electrical installation, and scaffolding & insulation. We are the only mid-sized firm in our industry that offers this collective expertise under one roof. Because of our company's size, clients get to know our team and always work with the same people, resulting in stronger working relationships and efficiency. We are agile in our approach to project delivery because we are able to pivot quickly and adjust our standard processes to suit specific clients' needs. ONEC believes in local leadership and we engage top talent from the communities we work in. We understand that local knowledge and presence are key to not only our overall business success but the economic success of the communities we work in.

Position Summary

We are seeking one Solar Electrician (Solar Site Cleaning and Coating Projects). Project scope includes the upgrade of a 10MW AC solar facility located near Sarnia, On. The scope of work will include cleaning existing modules and application of anti-reflective coating to increase efficiency. The successful candidate must be physically capable of lifting 50 lbs., and tolerant of dusty/loud working conditions. Previous construction experience is considered an asset; however, job-specific training will be provided.

Other responsibilities include:

- Conducting lock-out/tag-out and identify live and powered down equipment.
- Coordinating with operators and foremen on equipment repairs and maintenance.
- Assisting with cleaning and protecting equipment before end of shift.
- Assisting with quality spot checks on panels cleaned to ensure cleaner is operating correctly.
- Assisting with quality spot checks on coated panels to ensure applicator is operating correctly.
- Supporting progress tracking and reporting to Site Foreman.
- Assisting with equipment lifts and movement.

- Supporting QA/QC duties (reflectometer and temperature readings).

Our Ideal Candidate

- Journeyman Electrical Ticket.
- Previous on-site solar work experience is an asset.
- Previous machine operating experience is an asset.
- Basic solar-field/solar-module knowledge will be an asset.
- Ontario Occupational Health and Safety Awareness training (online)

Application Instructions

ONEC Group is an equal opportunity employer. Positions are filled by means of open competition where the selection is based on job-related skills, training, experience, and suitability. Final candidates will be asked to provide references. The results of the reference check must be acceptable to ONEC Group. We also consider different experience levels and knowledge and candidates with less experience may be considered for lower-level positions.

We thank all applicants in advance however only individuals selected for interviews will be contacted.

ONEC Group accepts resumes via online application at <http://onecgroup.com/careers/> or via email at hr@onecgroup.com. Please only submit in Word format.
